EDUCATION

Columbia Engineering Full-Stack Development Boot Camp   Expected April 2022

Touro College   January 2022

New York, NY

- Bachelor of Science in **Business Management Administration Information Systems: Programming**

TECHNICAL SKILLS

HTML/CSS, Java, JavaScript/jQuery, Python, SQL Server

PROJECTS

GoodApples

GitHub link: https://github.com/swagshall/wouldPay-project1

- Technologies used: HTML, CSS, Bootstrap, JavaScript, API's
- Designed and implemented a product review application, in a 3-person team, in one week.
- Enabled user to search up any product and see the rating, price, images, and related items from three separate online retailers (Amazon, Walmart, Otto).

Password Generator

GitHub link: https://github.com/swagshall/passwordGeneratorSw

- Technologies used: HTML, CSS, JavaScript
- Designed and implemented a password generator application.
- Enabled user to enter specific parameters, and the application uses the data to generate a random password for the user.

WORK EXPERIENCE

Full Stack Developer Intern   July 2021 – December 2022

SafeTelecom Queens, NY

- Worked closely with partner to plan and built out added functionality to a full JavaScript-based (Node.JS, Vue.JS, MongoDB) backend system.
- Added functionality to the current database and admin Dashboard.
- Created a new Auditor Dashboard to provide institutional clients the ability to monitor their specific sub-clients.
- Worked with existing RESTful API, made some changes, and added code to accommodate the changes.
- Added options to create, edit, delete, and save an auditor on both the server-side API and the client-side Vue.JS dashboard.
- Created filters to filter the auditors.
- Added options to assign an auditor to each end-user record in the existing API.
- Worked on front-end development using JavaScript and Vue.js for the backend changes to be shown on the dashboards.

Accounting Tutor   March 2021-Present

Touro College New York, NY

- Help guide students understand basic principles of Accounting I & II.
- Assess, and encourage students in the learning process.
- Review and clarify class material with students to reinforce their accounting knowledge and proficiency.

Office Manager   August 2019 - June 2020

Choice Paper Company   Brooklyn, NY

- Performed bi-monthly financial analysis of customer accounts.
- Prepared order forms and invoices.
- Prepared weekly payroll
- Maintained accounts receivables and accounts payables.
- Responsible for sustaining day to day management issues. This includes confirming received orders, customers service and processing payments.
